

AV6R71™

**116 CRM
67 RM**

- Performs best under moderate populations
- For areas across S Texas, Midwest and the Midsouth
- Use in Downy Mildew and Head Smut areas
- Bright red grain with above average mold tolerance

CHARACTERISTICS

Head Type	Semi-Compact
Grain Color	Red
Head Exertion	Good

AGRONOMICS

Yield under Drought	Very Good
Stalk Strength	Very Good
Root Strength	Average
Drydown	Good

MANAGEMENT RECOMMENDATIONS

Dryland	Good
Limited Irrigation	Very Good
Irrigation	Excellent
Heavy Clay Soils	Very Good

DISEASE RESISTANCE

Downy Mildew	Excellent
Anthracnose West	Very Good
Rust	Very Good
Sugarcane Aphid Tolerance	

NOTES:

IMPORTANT: Characteristic scores provide key information useful in selecting and managing products in your area. Information and ratings are based on comparisons with other products sold by AgVenture, Inc.. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision.
