

AV6R41™

109 CRM
64 RM

- Bronze color grain for all of the Midwest, Midsouth and E. Coast
- A high yield potential medium-early hybrid with good stalks
- Can tiller under good conditions
- Competes well with DKS36-06, DKS37-07 and DKS44-20

CHARACTERISTICS

Head Type	Semi-Compact
Grain Color	Bronze
Head Exertion	Average

AGRONOMICS

Yield under Drought	Excellent
Stalk Strength	Very Good
Root Strength	Average
Drydown	Very Good

MANAGEMENT RECOMMENDATIONS

Dryland	Excellent
Limited Irrigation	Very Good
Irrigation	Average
Heavy Clay Soils	Good

DISEASE RESISTANCE

Downy Mildew	Excellent
Anthracnose West	Fair
Rust	Average
Sugarcane Aphid Tolerance	Tolerant

NOTES:

IMPORTANT: Characteristic scores provide key information useful in selecting and managing products in your area. Information and ratings are based on comparisons with other products sold by AgVenture, Inc.. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision.
